China Ocean Engineering

Contents of Volume 6, 1992

Number 1

Nonlinear Wave Force on Pier Groups in Shallow Water
Qiu Dahong, Zhou Yuanheng and Jia Ying . . . . . (1)

Investigation of Allowable Stresses for Fatigue Design of Fixed Offshore Platforms
Xia Yongnian . . . . . (19)

Finite Element Method for Design of Reinforced Concrete Offshore Platforms
Song Yupu and Wang Jian . . . . . (27)

Simulation and Analysis of a Gravity Cylinder's Stability in Short-Crested Sea
Yuke and Su Weidong . . . . . (37)

Optimal Design for Main Dimensions of a 75000 t Floating Production and Storage Vessel
Tan Jiahua, Ma Wei and Pan Bin . . . . . (49)

Unified Water Gravity Wave Theory and Improved Linear Wave
Fu Yuhua . . . . . (57)

Experimental Study of Perforated Caisson Breakwater
Wang Jianyi . . . . . (65)

Effect of Wave Groups on Wave Run-Up
Zhou Jiabao and Zhang Jiachang . . . . . (79)

Fuzzy Risk Analysis of Harbour Engineering Investment by Hierarchy System Approach
Lin Shaopei and Zhang Zhongming . . . . . (87)

Numerical Study of Pollution on Sea Waters
Geng Zhaoquan, Ni Yongqiang and Zhou Anguo . . . . . (95)

Technical Note

Fatigue Behaviour of Tubular Joints Made of China-Made Platform Steel
Wang Guanghai and Chen Bozhen . . . . . (103)

Information . . . . . (111)

A Report about ISMS'91–Shanghai, China
A Report about the 11th ISSC–91, Wuxi, China

Number 2

The Nonlinear Wave Force on a Circular Cylinder in Shallow Water
Qiu Dahong . . . . . (117)

Coupled BEM–FEM Analysis of the Large-Diameter Cylinder Structure System
Zhou Xireng, Duan Xudong, Sang Xuezhu, Zhang Rui and Dai Jialu . . . . . (137)

Effect of Band Width on Fatigue Life under Random Stress Response
Wu Yisheng . . . . . (149)

Siltation Prediction for Navigation Channels and Harbour Basins on Muddy Beach
Liu Jiaju and Zhang Jingchao . . . . . (157)

Influence of Energy Directional Spread on Wave Spectral Refraction
Li Yucheng . . . . . (173)

A Review of Studies on the Interaction Between Waves and Muddy Bottom
Zhao Zidan . . . . . (187)

Interaction Between Pile–Supported Pier and Bank Slope
Wei Rulong, Wang Nianxiang and Yang Shouhua . . . . . (201)

Some Problems About the design of Breakwaters in Dayaowan Port Area
Weng Keqin . . . . . (215)

Study on Measurement Methods of Multi-Directional Waves—Wave Gauge Array Method
Yu Yuxiu and Liu Shuxue . . . . . (233)

Discussion on Cathodic Protection of HZ 21−1 Platform
Chen Lisheng . . . . . (243)

Number 3

Analysis of Wave Height in Front of a Wave Absorbing Structure with Rubble Foundation
Li Rongqing and Xie Shileng . . . . . (251)

Optimum Design for Offshore Platform Structural Reliability
Zhu Qixian . . . . . (265)

Design of Submarine Pipeline in BZ 34−2 / 4 Oil Field
Wang Jinying . . . . . (279)

Siltation Prediction for Navigation Channels and Harbour Basins on Muddy Beach
Liu Jiaju and Zhang Jingchao . . . . . (297)

The Boundary Element Method for Pile-Soil Interaction
Liu Xingye . . . . . (317)

Remote Sensing Analysis of the Suspended Sediment Transport in Lingdingyang
You Yuming and Hou Min . . . . . (331)

Model Test and Design of the Wave Energy System on "Central Fairway No. l" Light Ship
Gao Xiangfan, Liang Xianguang, Jiang Niandong, Feng Manzhi and Wang Wei . . . . . (351)

Technical Notes

Study on the Improvement of Sea-Entering Waterway in the Changjiang Estuary
Shen Huanting, Xu Haigen and Ma Xiangqi . . . . . (361)

Discharge Control on Boundary of Tidal Models and Measuring Techniques of Low Current Velocity
Li Guochen and Xu Jinhuan . . . . . (369)

Underwater Explosion Technology for Offshore Engineering Applications
Hu Tiezhao . . . . . (377)

Number 4

Long−Term Joint Distribution of One-Tenth Large (or Significant) Wave Height with Average Period
Pan Jinchang . . . . . (383)

Dynamic Analysis of a Single-Column Platform (II)
Lian Gan, Ni Kan, Hu Kai and Guo Dawei . . . . . (395)

Research on Horizontal Vibration of Heavy-Weight Drill Pipes in Directional Drilling
Jiang Wei and Wang Lan . . . . . (403)

Theoretical Calculation of Floating Breakwater Performance
Lao Guosheng and Feng Hong . . . . . (415)

Test Study on Erosion and Siltation Patterns of Sandy Bottom Before Mound Breakwater Under the Effect of Waves
Zhang Furan, Wang Huaren and Zhao Jun . . . . . (425)

Composite Type Wind Wave Frequency Spectrum
Fu Yuhua . . . . . (437)

Design of Distorted Wave Protection Armor Units
Lou Hongen . . . . . (445)

Quality Assessment of Concrete Blocks Exposed in Nature for Eight Years
Hu Yuchu, Wu Shaozhan and Lu Liyun . . . . . (455)

Sediment Transport Investigation in the Yangtze Estuary with Radioactive Tracer
Li Zhangsu . . . . . (471)

Settlement and Stability Analysis on Soft Clay Under Cyclic Loading
Yan Shuwang, Yang Jinliang, and Yan Chi . . . . . (483)

Calculating Method and Verification of Wave Pressure Distribution on the Break Wall of Mound Breakwater
Lu Wujiang . . . . . (491)
